

ASSOCIATION NEWS

ACI CONCRETE CONVENTION AND EXPOSITION

Nearly 2,000 engineers, architects, contractors, educators, manufacturers, and material representatives from around the world will convene at the Philadelphia Marriott Downtown Hotel in Philadelphia, PA, USA, October 23-27, 2016, to collaborate on concrete codes, specifications and standards. Technical and educational sessions will provide attendees with the latest research, case studies, best practices, and the opportunity to earn Professional Development Hours (PDHs). To learn more and to register please visit www.aciconvention.org.

NEW ACI PUBLICATION ON INSULATING CONCRETE FORMS

The new document, ACI 560R-16 Report on Design and Construction with Insulating Concrete Forms (ICFs), is a comprehensive introduction to the design and construction of reinforced concrete structures with insulating concrete forms focusing on ICFs for walls. It provides a general overview of ICF technology, the different types of ICFs, structural considerations for walls to be built with ICFs, and key aspects of constructing ICF walls.

NEW ACI STRUCTURAL CONCRETE SPECIFICATIONS

The new ACI 562-16: Code Requirements for Evaluation, Repair, and Rehabilitation of Concrete Buildings and Commentary is now available.

Based on nearly one century of content from ACI, these new code requirements combine the Institute's historical knowledge with state-of-the-art resources on the evaluation, repair, and rehabilitation of concrete buildings. ACI 562-16 provides minimum performance requirements that address the unique nature of existing building construction, rather than specific

formulas that must be followed in any situation.

The new ACI 562 Concrete Repair Portal showcases ACI's many resources on concrete repair including informational videos, free on-demand presentations on the new code requirements, recent industry article on concrete repair, and more.

MCI
MIGRATING CORROSION INHIBITORS
FROM GREY TO GREEN

MCI®-2018

Concrete Durability & Corrosion Protection

MCI®-2018 is 100% silane concrete sealer containing time-proven Migrating Corrosion Inhibitor (MCI®). The MCI® penetrates deep into concrete providing corrosion protection to reinforcing steel from water, chloride ions, and other contaminants. MCI®-2018 also provides water repellency by chemically reacting with the cementitious substrate under proper application, decreasing the ingress of additional aggressive materials.

Shoot for Excellence

Twelfth Annual ASA Outstanding Shotcrete Project Awards Program

Now accepting entries for 2016 Awards

Deadline: October 3, 2016

Pursuing an ASA Outstanding Shotcrete Project Award is not only a smart move for your organization but also good for the shotcrete industry. The ASA awards program offers your organization a unique and unmatched amount of exposure. In addition, the awards program and the annual awards issue of *Shotcrete* magazine are very important tools used to inform and educate the construction world about the versatility and benefits of the shotcrete method of placing concrete. Membership requirements are waived for International Project entries.

Bragging about your Outstanding Shotcrete Project on the application might just allow you to brag about your Project as one of this year's Award Winners!
