

ICRI Chapter Awards

By Dale Regnier

The ICRI Chapter Awards Program gives recognition to our chapters that, through their operations, programs, and activities, display a dedication to excellence and a commitment to success. The submission forms are designed specifically to help each and every ICRI Chapter, no matter the size, create their own unique road map to success. By reviewing a number of chapter activities and assessing all the areas of chapter operations, each chapter can determine areas where they excel and where they might need to focus a bit more attention.

These awards are for the Chapter activities during the 2007 calendar year. For the 2007 Awards

year, a record number of chapters participated, taking the time to evaluate their efforts and strengthen their missions. There are three possible awards. Chapters achieving 76 to 100 points are considered Excellent. Chapters garnering more than 100 points are deemed Outstanding. And the one chapter to achieve the highest number of points out of a total 159 possible is Chapter of the Year. The awards were presented at the 2008 Spring Convention in Daytona Beach Shores, FL. ICRI is pleased and proud to share these winners with all of ICRI. After all, chapters are the lifeblood of this organization.
