

PRESIDENT'S MESSAGE

KEITH HARRISON

By the time you are reading this, the Fall convention will have come and gone.

We hope that all who attended enjoyed their time networking, learning from the awesome technical sessions, and had a great time at the project awards ceremony. Thanks to all who have participated in that program and to the Awards Committee for another great job well done!

Cold weather will be approaching—but in January you can get away and join ICRI at our Kick-Off Party in Las Vegas. It's the way we start things off for the new year and for World of Concrete! Please be sure to sign up to attend World of Concrete using ICRI's source code (A36). It is a great way to show your support for ICRI. And don't forget to share it! That's right, share the ICRI source code (A36) with anyone planning to go to World of Concrete. Everyone who uses that code will save money on registration and get discounts on education. Share it and send your friends to the ICRI booth in the South Hall to say hello!

Also, as you may have seen, the new Certified Surface Repair Technician (CSRT) program is up and running. Do not hesitate to sign up to take this great online certification program. Once you do, you can take advantage of the live performance testing being offered during both the World of Concrete and the Surfaces show held the same week in Las Vegas. You won't have to videotape yourself performing the examination procedures to complete your certification; you can do it all live with an instructor at the show.

World of Concrete is a busy event for ICRI. In addition to the Kick-Off Party and the live performance exams for the CSRT program, we will also have the entire Concrete Slab Moisture Testing Technician Certification program there as well.

As you are planning your travels for early 2017, please don't forget to save the date for the ICRI 2017 Spring Convention—March 15-17. The theme is "Bridges and Highways" and we will be at the Le Westin Montreal hotel in beautiful Montreal, Quebec, Canada. It will be undoubtedly a great convention and I'm sure you all remember how much fun we had in Quebec City a few years ago!

As your 2016 ICRI President I would like to thank all of the ICRI committee chairs, the dedicated committee members, the ICRI staff, the Board of Directors, the executive committee and each and every member and non-member for the support and enthusiasm that you have shown and given to me and the organization this past year!

On behalf of the current ICRI Board of Directors, I want you to know how much we enjoyed seeing all of you at the Fall Convention. ICRI conventions are truly the best place to learn, network and make the most of your ICRI membership.

Please do not hesitate to email or call me with any questions or concerns at keith@capitalrestorations.com or (919) 878-0018.

Respectfully,

Keith Harrison, FICRI
2016 ICRI President
