GEORGIA HOSTS BREWERY TOUR

The ICRI Georgia Chapter hosted a summer social outing as a way to ease into fall. Wild Heaven Craft Beers is a Georgia brewery founded by lifelong Georgians Nick Purdy and Eric Johnson. Their year-round portfolio is focused on world-class beers designed to offer something new to the beer landscape—not simply creating a version of what everyone else is doing. Their beers are designed in the great tradition of European brewing but with a distinctly American creative flair. All-grain, no adjunct-sugar philosophy creates bigger flavor without excess alcohol. Wild Heaven aims to be one of America's great breweries as well as helping raise the profile of beer in the south.

This year's Georgia Chapter Fall Kick-off gathering saw participation at an all-time high. Since its inception, the

Georgia Chapter members and friends gathered at the Wild Heaven brewery for a summer social outing

This chapter outing is planned as way to socialize and prepare for fall, although the weather was very summer-like

The Georgia Chapter leaders welcome attendees to their summer outing

event has grown each year. A special thanks goes out to all the attendees; assembled from every aspect of the concrete repair industry including suppliers, engineers, and contractors. The purpose of the event is to provide a laid-back atmosphere for members and friends to transition from summer to fall, and to also introduce everyone to what will be coming up for the chapter during the remainder of the year. Upon conclusion of the event, Chapter President Bryan Heery thanked everyone for attending.

MINNESOTA HOLDS ANNUAL GOLF OUTING

ICRI Minnesota Chapter had its annual golfing outing on July 19, 2016 at the champion Edinburg Golf Course in Brooklyn Park, MN. The chapter had a record-breaking year with a total of 143 golfers and 18 sponsors. Special thanks to BASF and Miracote as the Albatross sponsors who provided everyone with a drink ticket and a chance to win a 60" television. It was a hot and sunny day on the greens.

Registration started at 11:30 a.m. so everyone could grab lunch, something

The chosen emcee for the evening was Terry Babcock

to drink and get the chance to take a couple swings on the driving range. The shotgun start was at 1:00 p.m. Along the course were the putting contest, the TV raffle ticket game and other fun activities presented by the event sponsors. The festivities concluded with a buffet style dinner and prizes. First place went to the BASF team of Chad Warren, Scott Schreifels, Eric Transberg and Trevor Johnson. The Minnesota Chapter, along with the sponsors, brought in an abundance of door prizes. A great time was had by all. The Chapter was able to raise a little more than \$4,500 that will go toward the Chapter's 2016 scholarships.

BALTIMORE-WASHINGTON MEMBERS ENJOY MAY SOCIAL

On May 19, the Baltimore Washington Chapter gathered together at Topgolf in Alexandria for a social outing. About 20 ICRI members attended the event which was sponsored by the chapter. The Chapter would like to say thank-you to member Kevin Kline for organizing the entire event. Another big thank-you goes out from the Chapter to Randall Kratz

with Sika for buying most of the refreshments.

The competition was tough, but Brian Baker with PPSI held the high score for most of the night. However, just before the closing bell, Matt Wills of Valcourt posted a 128 and took home the top score of the evening. The Topgolf facility turned out to be an excellent location for the social gathering, allowing for lots of fun, and plenty of networking opportunities.

NORTHERN OHIO LEARNS OF HISTORIC RESTORATION

On June 14, 2016, the Northern Ohio ICRI Chapter hosted Ron Czaplicki, Vice President and Secretary of Barber & Hoffman, Inc. Consulting Engineers. Mr. Czaplicki gave a presentation on the unique restoration and renovation of Maltz Performing Arts Center. Located at Case Western Reserve University, this project was local to the Cleveland area and noteworthy for the engineering firm of Barber & Hoffman, member of ICRI and supporter of the Northern Ohio Chapter.

The presentation detailed the inspection process used to determine the extent and type of repairs to be performed to the Guastavino-designed tile dome ceiling of the main auditorium. A repair program was designed to repair the cracked and debonded ceiling tile. Cracked and deteriorated tile were removed and replaced. Debonded tile was then reattached utilizing a micro crack injection grout from Cathedral Stone Products. Zak Beach of Cathedral Stone Products demonstrated the application of the micro crack grout.

MICHIGAN CRUISES THE DETROIT RIVER

On Thursday, July 28, 2016, the Michigan Chapter returned to the Detroit River for an evening of fun, food, and friends during the Chapter's Annual Summer Social Event. For this year's trip, the Chapter was upgraded to the new luxury boat "Portofino" thanks to generous sponsors, including Pullman, SST; Alta Equipment Company; J. Dedoes, Inc.; and W.R. Meadows. The Chapter welcomed a special guest as Dale Regnier (Chapter Relations Director for ICRI National) drove in from Chicago to join the group. After a social hour on shore, the boat left from Portofino on the River in Wyandotte, Michigan, and travelled upstream to the heart of downtown Detroit before returning to dock.

Cruising past iconic skyscrapers in downtown Detroit is a highlight of the Detroit River Cruise for the Michigan Chapter

The lower level dining room was luxurious on the "Portofino"

Approaching downtown Detroit

During the cruise the members and guests enjoyed a great dinner in the lower dining room, and then got to stretch their legs on the upper deck and enjoy the sights. Attendees were fortunate to pass alongside marvels you cannot see anywhere else. The boat cruised past three Great Lakes Freighters (Algowood, Michipicoten, and the John J. Boland), then past two salties (ocean-going cargo ships), the Iryda (from a Polish Steamship Company) and the Lisanna (from Antigua and Barbuda). During the return trip, the Chapter held its annual raffle to support its scholarship program. Prizes included gift cards to local stores and restaurants, a night stay at the Motor City Casino Hotel (thanks to Olympia Group), a set of ICRI Profile Chips, and a copy of the Concrete Repair Manual (thanks to ICRI). The weather couldn't have been better and the cruise and raffle were another success for the Michigan Chapter.

The upper level bar and deck were popular due to the perfect weather

The buffet dinner was a big hit with all the members and guests of the Michigan Chapter

METRO NEW YORK GOES FISHING

On Thursday, June 16, 2016 the Metro New York Chapter of ICRI hosted its third Annual Fishing Trip. There was a quick breakfast before sailing out from Freeport Long Island as Captain Jim and his crew chartered a course through the bay and out to open water. The day was limited to bottom fishing for seasonal

fluke and there were some that the group was able to take home for dinner.

Lunch and drinks were provided on board. The keepers that were caught by the attendees were cleaned and filleted by the crew. Other fish were caught including ling fish, sand sharks, sea robins, skates ("ratfish") and out-of-season sea bass. There were also some whale and shark sightings. All-in-all the weather held out and it was another good day out on the water for everyone in attendance.

As with any good fishing event, it has its own logo

Well, where are the fish?

I think I got something

Alex Somohano, MNY Chapter Treasurer from Waterproofing & Building Solutions, LLC definitely got something

From time to time Captain Jim could be seen checking on the Western crew at the boat's stern
