

# EXECUTIVE DIRECTOR

## AN INTRODUCTION TO ICRI'S NEW EXECUTIVE DIRECTOR, MIKE LEVIN

MIKE LEVIN, ICRI  
EXECUTIVE DIRECTOR

As your newly appointed Executive Director, I want to introduce myself and encourage you to reach out to me with ideas, questions, and concerns. Your input is very meaningful to me and important to the growth of ICRI. My email address is [mikel@icri.org](mailto:mikel@icri.org)

As I write this, I have been in the position for three days! It has been a busy time for everyone at Ewald Consulting, your new management company, including me, as we learn about ICRI, the industry, and the talented professionals who help keep the world safe.

Already I was fortunate to have ICRI Georgia Chapter members welcome me at their February monthly meeting where I met attendees and heard my first concrete repair presentation. ICRI Chapters are extremely valuable and I look forward to attending more chapter meetings to meet you and learn about the important work being done by the

industry. When you read this, I will have also participated in the Chapter Roundtable in Florida and the Spring ICRI Convention. A great start.

I bring to ICRI a comprehensive and unique background of more than 25 years in executive positions in association management. I have also owned two small businesses and understand the day-to-day challenges companies face.

Personally, I am actively involved as a judge in the FIRST Robotics Competition, and play softball and tennis. I have a Master's Degree in Administration from Florida State University and a Bachelor's in Communications from the University of Florida. I work remotely in Atlanta Georgia.

The ICRI Board and I look forward to implementing the Strategic Plan and enhancing the member benefits that will assist you with your training, education, and networking. I am excited about working in the concrete repair industry, to meeting each of you, and receiving your ideas.

---
