

PEOPLE ON THE MOVE

GACE Consulting Engineers DPC, an award-winning structural engineering firm headquartered in New York City, announces the promotions of **Christopher Behan**, **Alyson Sikorski**, and **Chok-Pan Wong** to Principals of the firm.

CHRISTOPHER BEHAN

Christopher Behan, PE, joined GACE in 1999 and feels strongly that the creative renewal of older buildings can be an efficient and environmentally friendly alternative to building new. Some of his prestigious projects include 326-344 West 40th Street, a three-building/four hotel development in New York City; Chelsea Market, a conversion also located in New York City; and Myrtle Avenue Development, mixed-use residential buildings in Brooklyn, NY.

ALYSON SIKORSKI

Alyson Sikorski, PE, joined GACE in 1998 and manages numerous projects of varying scale and complexity with a specialty in concrete high-rise buildings. A few of her notable projects include 1101 Ocean Avenue, a mixed-use development on the Jersey Shore waterfront in Asbury Park; the award-winning residential building, 22-22 Jackson Avenue in Long Island City, NY; and 1 Beekman, a mixed-use condominium building in Downtown Manhattan.

CHOK PAN WONG

Chok Pan Wong, PE, joined GACE in 1999 and believes that sustainable design solutions improve a building's economic, social, and environmental performance. His diverse portfolio of projects includes Larkin Plaza, a residential development in Yonkers, NY; 30 East 31st Street, a new-build residential building in Midtown Manhattan; and Embassy Suites Hotel

with 2-story garage at 60 West 37th Street, also in Midtown Manhattan.

JERRY PHENNEY

MAPEI Corp. is pleased to announce the addition of **Jerry Phenney** as its new National Specification and Commercial Projects Manager. Jerry, who begins his role in September, is responsible for implementing a national strategy to increase MAPEI Corp.'s market share via Large Commercial Projects and National Accounts through the development of specifications and interacting with property owners, engineering/architectural/consulting firms, general contractors and specialty subcontractors.

Jerry has over 30 years of experience as an engineer and contractor in the

restoration of parking garages, stadiums and building facades. He has served as Chairman of the Cleveland Engineering Society Design and Construction Committee, and is the current President of the ICRI Northern Ohio Chapter.

MELINDA G. REYNOLDS

The **American Concrete Institute** is pleased to announce the promotion of **Melinda G. Reynolds, CAE**, to Director, Membership and Customer Service. In support of ACI's strategic goal of working to increase participation of, and adding value for its members, chapter members, and customers, Reynolds will focus efforts on creating, implementing, and analyzing strategies, plans, and programs focused on growing the community of ACI members.

Even the toughest construction materials need a little reinforcement every now and then. Kenseal supplies contractors with high-performance concrete repair solutions from the most **rock-solid** brands in the industry.

Reynolds received her Bachelor of Science in Business Administration from Central Michigan University in Mount Pleasant, MI, USA, and has been managing the Member Services department at ACI since 2002. Reynolds—a Certified Association Executive since 2009—has served as a Track Chair of the Council of Engineering and Scientific Society Executives, has been a member of the Program Committees for both CESSE and the Personify annual meetings, and is a member of the Michigan Society of Association Executives Detroit Membership Community of Practice.

MICHAEL CONNOR

Michael Connor joins **Walker Parking Consultants** as senior parking consultant. He comes from Arlington County, Virginia where he was a parking manager for the past two years and prior to that, a transportation and parking consultant for 28 years.

Michael has a Bachelor of Arts degree in Environmental and Urban Systems from Virginia Polytechnic Institute and State University. He is an active member of the Institute of Transportation Engineers, Urban Land Institute and the International Parking Institute.

He will focus on leading and expanding Walker's Study and Car Park Management System (CPMS) practice in the Mid-Atlantic states and the Carolinas.
