

## BENEFITS OF COMMITTEE MEMBERSHIP:

- Learn the ins and outs of surface preparation from repair industry professionals
- Help shape the industry regarding surface preparation
- Influence the content of new guidelines for contractors, engineers, and specifiers
- Push the boundaries regarding new and existing surface preparation technology

## WHAT WE DO:

- Write and revise guidelines for concrete surface repair
- Create physical tools that help concrete professionals achieve specified surface preparation
- Teach means and methods of concrete surface preparation through webinars and seminars
- Build groundbreaking digital tools to move the industry forward

## GOALS/DELIVERABLES

1. Revise three existing ICRI documents outlining industry standards for surface preparation (310.1, 310.2, 310.3)
2. Complete and present a webinar outlining Guideline 310.2R (Selecting and Specifying Concrete Surface Preparation for Sealers, Coatings, Polymer Overlays, and Concrete Repair)
3. Develop potential new guideline for the remediation and preparation of contaminated concrete
